I have come across a 94 Yamaha 55 hp. Since a Yamaha factory tech is impossible to get a hold of, I called a local dealer. He said that motor was most likely imported, and a commercial model. Does anyone have any information about this motor, and its relation to my 1992 50 hp VRO (weight, performance, etc.) Thanks. grandmufti

I owned a 1989 Yamaha 115 until a couple of years ago, and have several friends who have owned that model. I believe that the V4 Yamaha 115 and 130's were some of the best motors Yamaha has made. If the motor checks out, I would have no hesitations about owning & using it. They are great motors. MyOutrage: posted 03-19-2006 06:03 PM ET (US)
