And if you don't want to bother with that, why not try some free audiobooks that don't require downloading?

## 292 Ford Engine

The Y-block engine is a family of overhead valve V8 automobile engines produced by Ford Motor Company. The engine is well known and named for its deep skirting, which causes the engine block to resemble a Y. It was introduced in 1954 and used in Ford's vehicles to replace the side-valved Ford Flathead V8, and replaced by the Ford FE engine (in medium cars) and the Ford Windsor engine (in small ...

The Ford 292 V8 engine first appeared in 1955 and was used in Ford production cars until the end of 1962. Ford kept their 292 V8 around for the popular Ford F-100 pick-up truck until 1964. The Ford 292 gained quite a bit of popularity due to the fact that it was used as the standard base engine in the all-new Ford Thunderbird.

### **List of Ford engines - Wikipedia**

First introduced in the 1957 Thunderbird, Ford's 312 c.i.d. V-8 belongs to the Y-Block engine family. According to Ford-Y-Block, the 312 c.i.d. and 292 c.i.d. blocks were identical and used for both engines. All were cast at Ford's Cleveland engine plant for a few short years, making 312 engines highly sought after.

Add to this the 292 block's reputation for thick cylinder walls that allow for increases in bore size (unthinkable in later Ford engine series with thin wall castings), and a combination of strength plus cubic inches can be achieved. It should be noted that blocks bearing C2AE casting numbers are said to have the thickest cylinder walls of all.
