2-STROKE OR 4-STROKE? If you're in the market for a 50cc, 80cc or even a 125cc scooter, the question of whether to get a 2-stroke or 4-stroke scooter may be on your mind. The 50cc market is loaded with models from both camps, whereas the 80cc, 110cc and 125cc markets are quite a bit more limited in this regard.

Motor Scooter Guide | 2-Stroke vs. 4-Stroke

More and more scooters are coming equipped with four stroke engines due to their dependability and ease of care. While most scooters were two stroke up until 2004 most manufacturers are producing four stroke models due to the disadvantages of a two stroke engine.

Two Stroke Vs Four Stroke Engines in Scooters

- Two-stroke engines have the potential for about twice the power in the same size because there are twice as many power strokes per revolution. Disadvantages of 2 Stroke Engines: - Two-stroke engines don't live as long as four-stroke engines. The lack of a dedicated lubrication system means that the parts of a two-stroke engine wear-out faster.

whats better a 2 stroke scooter engine or a 4 stroke ...
