The Handbook for Experimenters was compiled by the statistical staff at Stat-Ease. We thank the countless professionals who pointed out ways to make our design of experiments (DOE) workshop materials better. This handbook is provided for them and all others who might find it useful to design a better experiment.

Handbook Experimenters

The Handbook includes separate parts on procedures, field experiments and neuroeconomics, and provides the first methodological overview of replication studies and a novel set-valued equilibrium concept. As a whole, the combination of basic methods and current developments will aid both beginners and advanced experimental economists.
