Since it's a search engine. browsing for books is almost impossible. The closest thing you can do is use the Authors dropdown in the navigation bar to browse by authors—and even then, you'll have to get used to the terrible user interface of the site overall.

A Taxonomy Of Barnacles Galt

"A Taxonomy of Barnacles" is supposedly a novel about nature versus nurture, taking its name from an early work of Darwin, and posing, in the background, the question of why Darwin, having developed his theory of natural selection in a study of barnacles, waited many years to publish it, and then focused instead on finches.
