The economy of the United States is that of a developed country with a mixed economy. It is the world's largest economy by nominal GDP and net wealth and the second-largest by purchasing power parity (PPP). It has the world's eighth-highest per capita GDP (nominal) and the tenth-highest per capita GDP (PPP) in

...
This grand work traces the growth of the American economy and the standard of living of Americans from 1870 to around 2015.

As others have explained, the author's key argument is that 1870 to 1970 was a "special century" which achieved very high, never to be repeated growth rates, due to the one-time-only inventions of the
