With that kind of processing speed, MacBook Air can take on new extraordinarily intensive tasks like professional-quality editing and action-packed gaming. But the 8-core CPU on M1 isn't just up to 3.5x faster than the previous generation 2 — it balances high-performance cores with efficiency cores that can still crush everyday jobs while using just a tenth of the power.

The operating environment for air cargo, however, is increasingly challenging. Demand for air cargo experienced a notable deceleration in 2018, growing 3.4% compared with its extraordinary 9.7% growth in 2017. This softening of demand has continued into 2019, and IATA predicts 2.0% growth in freight tonne kilometers (FTK) for the year.
