In a previous article, I went over 14 examples of documentation mistakes you might be making. Today, I'm going to show you 10 examples of what makes great end user documentation. I should clarify that end user documentation does not serve the same purpose as technical documentation, so you shouldn't write them the same way. Technical documentation is meant to teach somebody everything there is ...

10 Examples of Great End User Documentation

Application User Guide Sample | happyhounds.pridesource

A user manual is a formal writing piece with a specific structure, and should be written by someone who is intimately familiar with the product such as a technical writer or the product designer. Writing an effective user manual requires knowing who is going to be using the product, then writing it with these users in mind.
