As finely tuned pieces of modern automotive engineering, driveshafts, universal and CV joints play a very important role in the transfer of engine torque to the wheels. This module brings these systems to life with high-tech animations that show the operation of propeller-type drive shafts, as well as universal and constant velocity (CV) joints.

Like all turbocharged engines with direct injection, the 1.8 TSI EA888 engine requires the high-quality oil and fuel, regular and proper maintenance. With reduced maintenance intervals and a good care, the stock Gen1/Gen3 engine life is about 150,000-200,000 miles (250,000-300,000 km); unpredictable expensive repair at 60-80k miles for Gen2 engines is highly potential.
