To the Doctor Struggling with Burnout: My friend, I remember being where you are, feeling like there wasn't anyone who could possibly understand the darkness I found myself in. The isolation. The inability to explain the full weight of what I dealt with as a primary care physician every day to my very well-intentioned non-medical tribe.

- Reflections of a Millennial Doctor

Becoming a Doctor Becoming a Doctor: Reflections by Minnesota Medical Students Caring for patients is a privilege. During medical school, students glimpse “the wonder, terror and exaltation of being on the edge of being” (Anatole Broyard, Intoxicated by My Illness) and come to terms with the responsibility of this privileged position.

New joint guidance. The guidance on reflective practice for doctors and medical students has been developed jointly by Academy of Medical Royal Colleges, the UK Conference of Postgraduate Medical Deans (COPMeD), the General Medical Council (GMC) and the Medical Schools Council (MSC). The guidance considers why reflecting on experiences, both positive and negative, is vital for being an effective doctor and for the wider system, and includes techniques for reflection, as well as considering ...

Reflective practice for doctors and medical students

They are instead designed to help doctors with the thought process for reflection, which is an important part of their professional development and appraisals. These personal stories from doctors show how reflective practice has helped them with their development.

Examples of reflection - GMC

Reflections on Being a Radiologist – The Good, the Bad, and the Future of Care. I’m sometimes asked what it is like to be a doctor. Rewarding, sure. Challenging, yes. Heartbreaking, many times. As a radiologist, I do more than just image what is inside of a patient. When I take a patient back to be scanned, they become like part of my ...
