Tecumseh has the best 4 cycle engine for snow blowers except for the 8 horse which I feel is lacking in power. Briggs is making the better two cycle snowblower engine which was the original Toro/Lawnboy design. It can run circles around the Tecumseh 2 cycle. Honda makes the best for generators and also the quieter muffler.

The dictionary defines an engine as a machine with moving parts that converts power into motion. That being so, when we consider how a car engine works we can ignore many of the extra parts (the water pump, the alternator, the starter motor and so on) that many people would also consider to be a part of the engine.
