Bloody Harvest - The killing of Falun Gong for their organs

Organ harvesting is a step in organ transplants. The purpose of organ harvesting is to provide organs for transplants. Transplants do not necessarily have to take place in the same place as the location of the organ harvesting. The two locations are often different; organs harvested in one place are shipped to another place for transplanting.

BLOODY HARVEST Revised Report into Allegations of Organ ...

The mere fact of blood testing and organ examination does not establish that organ harvesting of Falun Gong practitioners is taking place. But the opposite is true. If there were no blood testing, the allegation would be disproved.
