BMW's 540i is part of the german designated "E" series that a majority of BMW's cars have been built on. The 540i functions under the 5 series, which is determined by size, expense, and the like, and has been under the E34 and E39 development (or Entwicklungsmummren which means something similar to development in Germany and is where the E in the E series comes from) codes.

The BMW E39 is the fourth generation of BMW 5 Series, which was manufactured from 1995 to 2004. It was launched in the sedan body style, with the station wagon body style (marketed as "Touring") introduced in 1996. The E39 was replaced by the E60 5 Series in 2003, however E39 Touring models remained in production until May 2004.. The proportion of chassis components using aluminium ...
