Identifying ADHD and autism can be a valuable tool, but it often comes at a price: Parents of children with one or both of these disabilities often worry themselves into ignoring that many of these kids are also gifted. Bright Not Broken sends a corrective message to both their parents and to the educational professionals who treat them, describing

Banks, and Grandin (2011) focuses on the issues about the identification and education of twice-exceptional children (2e children). These are the children who simultaneously have exceptional gifts such as academic, physical, or intellectual abilities, and a developmental or learning impairment such as the autism spectrum disorder or the attention deficit
