Only trained workers should use power tools on the job. Training should include reviewing the instruction manual, how to inspect the tools before each use, and following the manufacturer's maintenance schedule. When maintaining and inspecting power tools, keep the followings tips in mind: Use properly sized fittings and parts for the power tools.

### **Power Tool Safety | OSHA Safety Manuals**

Ensure that you have been properly trained to use the tool safely. Read the operator's manual before using the tool and operate the tool according to the manufacturer's instructions. Use only tested and approved tools. Ensure that the power tool has the correct guard, shield or other attachment that the manufacturer recommends. Prevent shocks.
