CVP License. There are two type of CVP Ports one for Call Server and another for VXML Server.Yes 1000 ports are for CVP Call Server (SIP and IVR). CVP SIP service will allocate the license as soon as it gets an incoming and it release that license only when the Call Terminates. (in a typical comprehensive callflow model SIP service is the one will communicate to ICM via message bus, the license is already allocated by SIP Service).
