Another new  
technology used in civil  
engineering is a cloud  
collaboration tool  
called basestone.

basestone is a system  
allowing the remote  
sharing of data on a  
construction site in real  
time. It is

predominantly a review  
tool for civil engineers  
and architects which  
digitises the drawing  
review process on  
construction projects,  
and allows for better
