their own upon discharge. Don't worry.

Baby has come home: dealing with changes

As we grow older, many changes occur within us both physically and emotionally and coping with these changes can become stressful. Vitality we once had as young men and women is now gone. Indeed, even though people generally enjoy a longer life expectancy nowadays, the aging process can be a painful fact to come to terms with.

June is Pride month and COVID-19 has altered the ways the LGBTQ can celebrate together. For many, the uprisings have been a reminder that Pride started as a riot and that Black Lives Matter includes Black trans, queer, non-binary and gender-nonconforming people. In this week's episode, host Tonya Mosley is joined by Steven Canals, the

Coming Out While Staying In: Dealing With Homophobia At Home

Distress is common following a chronic disease diagnosis. Research indicates that people who are experiencing a number of stressful life events before diagnosis, and those with a history of depression, may be at particular risk of psychological distress when they learn they have a chronic illness. 1 However, even people with relatively few stresses in life can be shaken by a chronic disease ...
