Presario is a discontinued series of desktop computers and notebooks from Compaq. The Presario family of computers was launched for the consumer marketplace in September 1993. In the mid-1990s, Compaq began manufacturing PC monitors as part of the Presario brand. A series of all-in one units, containing both the PC and the monitor in the same case, were also released.

I have been facing a similar problem with my Compaq Presario V3070TU (V3000 series) running on Windows XP Pro SP2, wherein all of a sudden it started closing the active Windows of any application. It even closed the context menu on right click automatically! It had a couple times given a long beep before the bootup (POST) which kind of scared me.
