Introduction & Background. I've been wanting to write this post for a while but at lunch today in Sydney with my friend and ex-colleague Marco Furlanetto I got the impetus I needed to get started - thanks Marco! Some of you who know me will probably know that I've been an SAP Portal person almost since the beginning of the portal, I worked with the portal predecessors namely the TopTier ...

an external system (i.e. other than SAP SRM System). The idea is to integrate SRM system with the backend or external systems (Planning, Design, Maintenance systems etc) and accelerate the procurement process as SRM will serve as the single front-end for the procurement process. Note: The below configuration is based on the SRM 5.5 & ECC 6.0.
