These cases come with either a Lighting Node Pro or Commander Pro. With the Lighting Node Pro, you will be able to set and control your Corsair RGB devices via iCUE using the two included RGB lighting channels. These are also used to connect a Corsair RGB fan hub for controlling Corsair fans, or Corsair RGB Lighting Strips for a bit of bling.

"Corsair did an outstanding job with the Carbide 200R. It isn't that often that you are grace with so many extras in a \$60 PC tower. There are many cases in this price range to choose from and most of the time it comes down to features, looks, ease to build or simply company rep. and with the 200R you get all that plus some." Full Review!

I've searched Google, the Corsair forums, and even other forums. I still have yet to see a product manual. I'm planning on removing the entire HDD assembly as well as replacing the front 200mm fan. I can't seem to figure out how to get the front panel off though. My goal: Mount 2x120mm radiator on top
