Damp Squid The English Language

A fascinating study of words *as people actually use them.* Most books on language do not have the power of the Corpus behind them, which is what makes Damp Squid so special. This book is written for a British English audience, which means that even hardcore linguaphiles like myself will be kept slightly off-balance the entire time.

Damp Squid: The English Language Laid Bare by Jeremy

...

Damp Squid's obscure title masks a jewel of a book about the Oxford "corpus," a two-billion word, computer-analyzable sampling of written and spoken English, and how its existence allows logophiles to answer questions such as "which words and meanings are most frequent" and "how many words do we use in general language."
