Chapter 22 Descent with Modification: Darwinian View of Life Lecture Outline . Overview: Darwin Introduces a Revolutionary Theory. On November 24, 1859, Charles Darwin published On the Origin of Species by Means of Natural Selection. Darwin's book drew a cohesive picture of life by connecting what had once seemed a bewildering array of ...

### Chapter 22 - Descent with Modification: Darwinian View of ...

Over time, the idea that species changed from natural selection pressures through "descent with modification" gave rise to the idea of evolution. Data accumulated over time, for example the long study of the Galapagos finches by the Grant research team, has supported this idea and moved it into the realm of a supported theory of biology.

### Chapter 22: Descent with Modification: A Darwinian View of ...

Descent with modification refers to the passing on of traits from parent organisms to their offspring. This passing on of traits is known as heredity, and the basic unit of heredity is the gene. Genes are the blueprints for making an organism, and, as such, hold information about its every conceivable aspect: its growth, development, behavior, appearance, physiology, and reproduction.
