Objectives: This research was conducted in order to determine the influence of thermal comfort, as measured by the index of temperature Wet bulb globe temperature (WBGT), the Global Attention and Perception Index (GIFS) of high school students from a school in Barranquilla, Colombia. Methods/Statistical Analysis: For this, an experimental design was performed, in which the variable peck ...

This research was conducted in Dambatta local government with aim of determining the influence of texture and organic matter content on soil water holding capacity. Three sites were chosen based on land uses- cultivated area (Jama'a village), uncultivated site (shantake) and Tomas irrigation site. Fifteen composite samples were randomly collected from the top (0-15 cm) in the sites.

The XY sex-determination system is a sex-determination system used to classify many mammals, including humans, some insects (), some snakes, some fish (), and some plants (Ginkgo tree). In this system, the sex of an individual is determined by a pair of sex chromosomes. Females typically have two of the same kind of sex chromosome (XX), and are called the homogametic sex.

The self-determination version of intrinsic motivation, however, emphasizes a person's perception of freedom, rather than the presence or absence of "real" constraints on action. Self-determination means a person feels free, even if the person is also operating within certain external constraints.

The influence of the mixing intensity in MBBR was evaluated for ammonium and COD removal. A stronger influence was observed for ammonium removal when compared with COD removal. The values of the external mass transfer coefficients in the investigated range were 0.7-13.5 and 2.9-22.4 m d⁻¹ for ammonium and COD, respectively.

Theoretical principles for computing the refraction influence for precision leveling are considered. In the analysis, the radius ρ of curvature of visible light oscillation is used as a basis. Actually, the curvature radius ρ is a function of the vertical gradient of the light refractive index. The vertical gradient refractive index is expressed by vertical gradients of air temperature ...
