## **Different Uses Of Moving Average**

Different types of  
Moving Average Simple  
Moving Average (SMA)  
It is simply the average  
price of a security at a  
given period of time.  
Usually, these are  
calculated using  
closing prices. The sum  
of closing prices for the  
last ten days divided  
by ten is the Moving  
Average of that  
security. Naturally, as
