Differentiating Assessment In The Reading

Differentiated instruction, also called differentiation, is a process through which teachers enhance learning by matching student characteristics to instruction and assessment. Differentiated instruction allows all students to access the same classroom curriculum by providing entry points, learning tasks, and outcomes that are tailored to students' needs (Hall, Strangman, & Meyer, 2003).

Differentiation means tailoring instruction to meet individual needs. Whether teachers differentiate content, process, products, or the learning environment, the use of ongoing assessment and flexible grouping makes this a successful approach to instruction.

What Is Differentiated Instruction? | Reading Rockets

The emphasis in this book, and in a differentiated classroom, is on assessment to inform instruction. The term assessment derives from the Latin *assidere*, meaning "to sit beside" (Wiggins, 1993). There are essentially two kinds of classroom assessments: formative and summative. Formative assessment is sometimes called ongoing assessment.

Assessment and Differentiation: A Framework for Understanding

Differentiated Assessment Methods With any one of these assessments, teachers have the opportunity to get creative with how students demonstrate mastery. Instead of just giving students multiple-choice, fill-in-the-blank, or essay tests, the way in which students are assessed can be differentiated so that any disability the student might have can be bypassed and learning can be gauged appropriately.

Differentiated Assessments in the Inclusion Classroom and ...

Effective differentiation requires ongoing evaluation of students' needs and conscious attention to designing instructional activities and assessment to meet those needs. It is true that teachers must have an extensive repertoire of research-based instructional strategies at hand, but they must also be able to "think outside the box" to ensure that each student's needs are met.

Differentiated Instruction for English Language Learners ...

To make this move toward a differentiated classroom, teachers must shift their thinking in six key areas. They need to. 1. Recognize that children continue to develop their reading skills in middle and high school. 2. Provide multiple texts at varying reading levels for students. 3. Use assessment to inform planning and instruction. 4.

Differentiated Instruction in the Content Areas ...

Simply put, differentiation is tailoring your instruction to meet the needs of individual learners. According to Carol Ann Tomlinson, "Differentiating instruction means 'shaking up' what goes on in the classroom so that students have multiple options for taking in information, making sense of ideas, and expressing what they learn."
