Online education is nothing new. Okay, the technology is relatively new. However, the concept is over 170 years old and has its origins in a correspondence course offered in Great Britain where the instructor sent lessons and received students' completed assignments by mail. Distance learning was born, and today's online courses are modern versions of

In the fast-changing world of distance education, current information is crucial. This book was last updated in 2005 and many programs have begun or have changed since then. With that caveat, this is an excellent and comprehensive resource. The information on the schools is quite comprehensive, and program details are relatively abundant.
