CONSTRUCTION AND HOME BUILDINGThe domestic architecture of colonial elites was predominantly Georgian and highly influenced by English design and building materials imported from Britain. Georgian homes were stark one- or two-story boxes with symmetrical fenestrations. Roofs included gabled, gambrelled, and hipped styles. Embellishments were usually limited to dentiled cornices.

Construction is an ancient human activity. It began with the purely functional need for a controlled environment to moderate the effects of climate. Constructed shelters were one means by which human beings were able to adapt themselves to a wide variety of climates and become a global species.. Human shelters were at first very simple and perhaps lasted only a few days or months.
