affecting forestry
entrepreneurship. This
is understandable
because most policies
in forestry are aimed at
supporting sustainable
forest management,
wood production and
ecological services of
the forests rather than
entrepreneurship as
such.

1. Introduction. Forest entrepreneurship has been pointed as a promising solution for some of the problems in the forestry sector, in which it is not easy to increase the socioeconomic dynamics, bringing more economic activities and creating more employment (Shyamsundar et al., 2020), including a higher support in the markets promotion
