Unit 4: Atmosphere and Climate - AP Environmental Science

Unit 1 serves as an introduction to environmental science. Much of the unit centers around outlining what exactly comprises the environment and outlining a few of the major ways organisms and the environment interact. Also covered are concepts regarding sustainability as well as the scientific method and basic chemistry and biology.

Unit 1: Environmental Science - AP Environmental Science

The correct answer is (A). Drip irrigation is the most efficient form of irrigation because it utilizes a slowly dripping hose that is either laid on the ground or buried beneath the soil. It allows plants to absorb at a steady pace, rather than all at once, as in flood or furrow irrigation.
