## **EU regulation of GMOs: law and decision making for a new ...**

Recent years have seen a massive push from the GMO lobby to exempt gene editing from the EU's GMO laws, thus enabling them to escape safety checks and labelling. This de-regulation would require the GMO Directive 2001/18 to be opened up in order to change the definition of a GMO. But a peer-reviewed ...

## **No appetite for changing EU's GMO laws to exempt gene editing?**

European Union. European Union enacted regulatory laws in 2003 that provided possibly the most stringent GMO regulations in the world. All GMOs, along with irradiated food, are considered "new food" and subject to extensive, case-by-case, science-based food evaluation by the European Food Safety Authority (EFSA).
