Firewall Forward - Wicks Aircraft Supply Company

Firewall Forward, Part 3 After enlarging one of the firewall openings from 1" to 1.375" for the d-sub connector on the engine wiring harness, it was time to fabricate a custom pass through. As previously mentioned, I am using the Alumiweld product (from Harbor Freight) to "braze" the tube stock to the sheet stock.

RV-12 N79AM: Firewall Forward, Part 3

3/14 to 3/27/10. 35 hrs. Sec FF1. Engine Installation The actual hanging of the engine was easy. It was all the work leading up to it that was hard. I wanted to make sure I had my firewall finalized and that involved having the EIS holes and grommets in place as well as the manifold pressure port.

RV-10 Firewall Forward Kit

2003. The powerplant is an Eggenfeller 2.5L firewall-forward package delivered in June 2002. The owner and builder of the plane has customized a few things, but the installation sequence and guidelines remain common to all packages. I will indicate all references to these optional customizations.

NOTICE - Your Eggenfeller firewall-forward package is an

The firewall already has four, pre-punched holes that designate locations for 4 of the 6 bolts used to install the engine mount. The instructions are simple as well...square the mount on the firewall and center it on the four holes in the firewall. I decided to enlarge one of the holes to full size (3/8") first.
