Started in 1999, the goal of The Manual Project is to scan as many US video game manuals as possible. Once scanned they are posted here so that everyone may read them. To date over 400 NES and SNES manuals have been scanned and posted, and the project is now expanded to include works from other sites.

High Quality Game Manual Scans. You must take a look at this incredible online resource for manual scans. High Quality Scans features a huge collection of scans of video game manuals, distributed via BitTorrent. I've been looking for a site like this for quite a while, but most of the ones I come across are pretty low quality — not the case here.
