It may seem overwhelming when you think about how to find and download free ebooks, but it's actually very simple. With the steps below, you'll be just minutes away from getting your first free ebook.

High Rise Living In Asian

The height of apartment buildings in both cities continues to rise. The tallest is anticipated to be 70-storey. It is the contention of this book that contrary to earlier common negative discourses on public high-rise living, the high-rise environment may yet offer urban residents a satisfying dwelling experience.

Living in super tall residential buildings of 60 or more storeys high is increasingly quite common in Hong Kong. Although the tallest residential building is presently 40-storey, Singapore is building 50- to 70-storey housing in its city centre. This book seeks to examine the high-rise living experience of Hong Kong and Singapore.

High-rise living in Asian cities (eBook, 2011) [WorldCat.org]

Residential tower complexes are common in Asian countries such as China, India, Indonesia, Taiwan, Singapore, Japan, Pakistan, Iran and South Korea, as urban densities are very high. In Singapore and urban Hong Kong, land prices are so high that a large portion of the population lives in high-rise apartments. In fact, over 60% of Hong Kong residents live in apartments, many of them condominiums.
