History Of

Linguistics

Britannica

Linguistics is the scientific study of language. It involves an analysis of language form, language meaning, and language in context.. Linguistics began to be studied systematically by the Indian scholar Pānini in the 6th century BCE. Beginning around the 4th century BCE, China also developed its own grammatical traditions. Aristotle laid the

Early Modern

a product of the 19th century, as are the academic field and the form of enquiry that it designates. This enquiry is however continuous with modes of analysis that date back to ancient times, as practiced in various traditions in Asia and Europe (together with the African parts of the Alexandrian Empire).
