Honda Motorcycle Engine Id Number

Finding the engine serial number on a Honda motorcycle can be easy or more of a challenge, depending on the model of motorcycle. Cruisers have engines that are relatively exposed, and the engine number should be easy to spot. Sport bikes may have fairings that cover the engine, making the engine number more difficult to locate. At first glance, a motorcycle engine serial number looks complex.

How to Read a Honda Motorcycle Engine Number | It Still Runs

Locate the 17-digit Vehicle Identification Number (VIN) printed on the frame of your Honda motorcycle. This is often stamped onto the right side of the steering head, where the front fork is mounted on the frame. The VIN is also imprinted on a metal tag located on the left side of the frame above the motor. Locate the first character.

Honda Motorcycle Model Identification

To find the model number, look for a model number sticker on the engine. All Honda engines model numbers start with the letter "G," such as "G100", "GX610", or "GXV160." This is the base engine model. The engine model and serial number should be adequate for most of your needs.
