While modern books are born digital, books old enough to be in the public domain may never have seen a computer. Google has been scanning books from public libraries and other sources for several years. That means you've got access to an entire library of classic literature that you can read on the computer or on a variety of mobile devices and eBook readers.

### I Remember You Cathleen Davitt

I Remember You by Cathleen Davitt Bell is the most haunting book I think I have ever read. It is extremely intense, in a good way, and it made me stop and think, a lot. I literally had to put the book down so many times just to absorb what I had just read. I was so torn between going to bed for work and staying up to finish the book.
