The style has its advocates, but it is falling out of favor due to the many weaknesses of autocratic leadership. Some people have argued that the style is popular with today's CEO's: who, a cynic would say, have much in common with the feudal lords of Medieval Europe. Likely Use. Authoritative works well in a crisis where a decision must be ...

The selector is the link between the HTML document and the style. It specifies what elements are affected by the declaration. The declaration is that part of the rule that sets forth what the effect will be. In the example above, the selector is h1 and the declaration is "color: green." Hence, all h1 elements will be affected by the declaration, that is, they will be turned green.
