The book frames the contribution of community-university research partnerships within a larger knowledge democracy framework, linking this practice to other spaces of knowledge democracy. These include the open access movement, new acceptance of the methods of community-based and participatory research and the call for

Knowledge democracy recognizes all forms of knowledge or ways of knowing. Unfortunately the current dominant form of calling for submissions and publishing still continue to exclude the already excluded (). This is a contradiction to the whole philosophy of Knowledge Democracy and community based and action research since they advocate for
