In 1960, Aero Commander switched the 500A from Lycoming to 260-HP fuel-injected Continental engines claimed to put out an extra 10 horsepower each with fewer cubic inches. Sadly, it didnt work out that way. Aero Commander pilots say the 500A is not nearly as sprightly in the air as the 500, despite book figures that claim it performs better.

Aero Commander 500 Flight Manual

Aero Commander was eventually bought by Rock- well International. One distinguishing feature of the Rockwell Shrike is its eyebrow windows for improved cockpit visibility. This business twin was certified in the utility category partly because the landing gear was designed for use on aircraft nearly twice the Shrike's gross weight.

Aircraft manuals aero commander 500 - PilotMall.com

The basic airframe of the Aero Commander was the concept of Ted Smith, long before he came up with the Aerostar. The first model 520 made its bow in 1952, predating the Piper Apache by two years and the Cessna 310 by three. After the 520 came various 560 models. But this article will focus on the straight 500 line and its offshoots.

Aero Commander Aircraft Manuals - PilotMall.com

The Aero Commander 500 family is a series of light-twin piston-engined and turboprop aircraft originally built by the Aero Design and Engineering Company in the late 1940s, renamed the Aero Commander company in 1950, and a division of Rockwell International from 1965. The initial production version was the 200-mph, seven-seat Aero Commander 520.

Aero Commander 500 family - Wikipedia

The Aero Commander was developed in the late 1940's, by the Aero Design & Engineering Company, and the first prototype (Model L3085) flew in 1948. The first model to enter production was the Aero Commander 520, in 1951 (initially designated L-26 in military use).
