The title did not lie. It was definitely radical home economics. Some of the projects I do already: clean with vinegar, compost, grow my own herbs and vegetables and sew, but some of the projects I will NEVER do. Yes, I am talking about making my own sanitary napkins. An admirable idea, but not going to happen.

The authors, in great detail and perfectly understandable prose and argument, debunk the truisms of economics and the fatuous application of modeling to real life. The title, Radical Uncertainty, indicates why. No matter the source of one's numbers, once plugged in to a model, they produce hypotheticals that cannot be relied on.
