We, at Shoreline Construction, faithfully live by our mission statement: "to create timeless detail with unmatched quality, 100% client satisfaction, and intentional relationships."

Shoreline Construction

Definition. In the coastal zone, managed retreat is the application of coastal zone management and mitigation tools designed to move existing and planned development out of the path of both short- and long-term coastal hazards (e.g., hurricanes/typhoons, nor'easters, tsunamis, El Niños, king tides, erosion, flooding, storm surges, sea-level rise). This management strategy is based on a philosophy of avoiding or moving out of harm's way and is proactive in recognizing that the coastal ...

Managed Retreat | SpringerLink

Surfer's Point Managed Shoreline Retreat Project The City of Ventura, California, has had ongoing erosion at Surfer's Point, a popular surfing spot, adjacent to the mouth of the Ventura River. A California State Park bike path along the shoreline and an adjacent County Fairground parking lot, have also experienced frequent damage from erosion.

Surfer's Point Managed Shoreline Retreat Project ...

Contact. Surfer's Point Managed Shoreline Retreat and Trail. The City of Ventura hired RRM Design Group to prepare design development and construction drawings for the Managed Shoreline Retreat of Surfer's Point. Damaged by El Nino storms of 1999, Surfer's Point required years of collaboration, hard work, and negotiation between several area stakeholders, state agencies, and local agencies to become a great catalyst for restoration, roadway, and bike path improvements in its ...

Surfer's Point Managed Shoreline Retreat and Trail | RRM

A so-called "managed retreat" policy would, over time, not only move residents inland and out of harm's way, but also enable coastal areas to "heal themselves," as it were. Construction being a main cause of coastal erosion "Managed or planned retreat...allows the shoreline to advance inward unimpeded," explains beachapedia.org.

Time for a managed retreat - floridavelocipede

A key campaign success and ongoing project for the Surfrider Foundation Ventura County Chapter is the Surfers' Point Managed Shoreline Retreat.. Instead of building a seawall or other coastal armor, which would have destroyed the beach and surf break, stakeholders came together and approved a plan to move the parking lot, pedestrian path, and bike path away from the tideline.

Surfers' Point Managed Shoreline Retreat - Ventura County

Managed or planned retreat (also known as managed realignment, resilient relocation and transformational adaptation) allows the shoreline to advance inward unimpeded. Managed retreat defined by Hino et al 2017as "the strategic relocation of structures or abandonment of land to manage natural hazard risk."

Managed Retreat - Beachapedia

The Surfers' Point Managed Shoreline Retreat project is one of the first managed retreat projects to be implemented in California. Developed in response to coastal erosion during the early 1990s, the project has been featured in numerous case studies and serves as a model of sustainable shoreline management in the era of rising seas.
