### **Mikrotik User Manual**

Well it seems to me that after the initial docs were put up 5 years ago, not much has happened to help us guys integrate User Manager into our networks. I see everywhere over the net people desperately needing answers to UM questions, yet not many are full or comprehensive enough to allow us to install and use UM and I now find myself asking specific questions here, simple questions that ...

...

Although I don't use it much myself, many Mikrotik users would be familiar with the "user-manager" package built by mikrotik as an "all-in-one" hotspot solution for small-medium installs. Many of the functions in this are automated, however not the addition of per-account rate limits, which would normally be based on the package purchased.

### **scripts | The (unofficial) Mikrotik site - Part 4**

And now I'm posting about the "user manager" of the Mikrotik. What is a user manager? User Manager is a RADIUS server application. It is a separate package for RouterOS. Install User Manager. 1. Check the Mikrotik, whether user-manager existing package. Click the System - Packages.

## **CONFIGURE & INSTALL: Mikrotik User Manager as Radius Server**

Mikrotik User Manager is a management system that can be used to manage users as follows: 1. HotSpot users 2. PPP (PPTP / PPPoE) users 3. DHCP users 4. Wireless users 5. RouterOS users. This paper reviewed some of the User Manager for hotspot users.
