CHAPTER 9 Profit Planning and Budgeting

Profit planning. June 21, 2020. / Steven Bragg. Profit planning is the set of actions taken to achieve a targeted profit level. These actions involve the development of an interlocking set of budgets that roll up into a master budget. The management team adjusts the information in this set of budgets to arrive at the combination of actions needed to arrive at the targeted profit level.

Profit planning — AccountingTools

Managerial accountants plan future activities for the company in order to maximize the financial benefits received and minimize financial consequences. Financial benefits include revenues and gains on fixed asset sales. Financial consequences include expenses, capital expenditures and income tax liability.

Planning Vs. Controlling Managerial Accounting | Bizfluent
