The most popular design is the constant-mesh gearbox. It has three shafts: the input shaft, the layshaft and the mainshaft, which run in bearings in the gearbox casing. There is also a shaft on which the reverse-gear idler pinion rotates. The engine drives the input shaft, which drives the layshaft.

The automated manual transmission is perhaps better known and more accurately described as the dual-clutch automatic, and it is an increasingly popular option. Though the dual-clutch automatic transmission became popular on high-end performance cars, such as Porsches and Audis, it is increasingly available on more mainstream models.
