Mapping the Nation: History and Cartography in Nineteenth-Century America by Susan Schulten (review) Minardi, Margot. 2014-02-08 00:00:00 topic, and her viewing this evidence as reflecting a personalized, middleclass, political consciousness represents a new way to think about earlier conclusions.

Mapping the Nation: History and Cartography in Nineteenth ...

Schulten concludes that by the end of the nineteenth century, maps had become important means by which the modern American state asserted power over the nation's people, territory, and resources. Schulten contends that between the Revolution and the twentieth century, maps were transformed from simple informational tools into complex artifacts of interpretation and analysis.

The second map shows the United Nations partition plan of 1947, which awarded Jews (who only then owned about 6% of Palestinian land) a substantial state alongside a much reduced Palestine. Although apologists for the Zionist movement say that the Zionists accepted this partition plan and the Arabs rejected it, that is not entirely true.
