Math Expressions Teacher Edition Volume 1 Grade 5 2013

A math expression is different from a math equation. An equation will always use an equivalent (=) operator between two math expressions. For example, $25 + 7 = 64 \div 2 = 20 \times 5 = 102$. The structure of defining math expression advances in different grades. In early grades, children are expected to write math expressions using numbers and ...
