Medical coders use a standardized classification system to code patient information for insurance claims, databases and registries. Most employers, such as hospitals, physicians' offices and other medical facilities, prefer applicants with a postsecondary certificate or associate degree in medical coding and billing.

A word of warning: because medical billing and coding is expanding so rapidly, many young coders often find the job market saturated. It can be tough to get a coding or billing job right away. Many new coders and billers start working in related healthcare fields, and then use that experience as leverage to get a billing or coding job.
