I have been poking about trying to understand how the KiB M1379 Micro Monitor in my 2013 R-Pod 171 works. There seems to be little documentation available on the web. A prior post in this forum gave me a starting point, and i'm grateful for it. This is an edit of that post with information from further investigation added.

KiB M1379 Micro Monitor notes - Forest River Forums

Wiring Harness - The wiring harness is an engineered assembly of wires and connectors which provides the monitor panel with 12 volt DC power as well as inputs from those items being monitored. Wiring harnesses are typically color-coded. The wiring diagram prepared for each Ventline monitor panel will reflect the
