Mini Cooper Warning Light Guide

11-) Battery charge warning light. This Mini Cooper dashboard symbol means that your car's charging dynamo is a problem and that your car only works with the battery. Whatever the cause of the battery warning, the safest option is once again to take your car to the service station and to the car to check for the fault.

Mini Cooper Warning Lights | Mini Cooper Dashboard Symbols

Transmission overheating light. The Mini warning light cog with thermometer indicates that the transmission is overheating. The severity of the problem is determined by the colour of the symbol. Red indicates overheating and requires that you stop the vehicle to allow the transmission to cool down before continuing. Yellow indicates a hot transmission.

Mini Dashboard Warning Lights and Meanings

24th Apr 2019. Whether you're driving a Mini Cooper, Mini Countryman, Mini Clubman, Mini Convertible, or another model, the warning lights on the dashboard follow a traffic light colour system: Green: the system is working correctly or is currently in use. Yellow: something is not working correctly - take extra care and check it out as soon as ...

Mini dashboard warning lights - what they mean | RAC Drive

The reason the ABS warning light appears in yellow is because technically you can drive your Mini Cooper without ABS, but it isn't recommended. Often this could be a small problem, such as a bad ABS sensor or even a dirty one that needs cleaning, or it could mean your ABS system needs professional attention.
